

Hello!

Welcome to RML.

This is the part of the RML document where your text is placed.

It should be enclosed in `<para>` and `</para>` tags to turn it into paragraphs.

You can no longer see borders around the two frames on this page, because `showBoundary="0"` in the template section at the top. Set it to 1 and the black borders will reappear.

This is an extra paragraph which is a bit longer. It is supposed to

fill up the rest of the current frame, and demonstrates what happens when a frame fills up with text. It should start flowing into the next frame. blah blah waffle waffle lorem ipsum etc etc
